## *Care to Share: Our Referral Program*

Referrals are appreciated!

We truly appreciate the powerful influence of our patients, and are so thankful that they find us deserving of their recommendations.

Your personal recommendations can directly influence the decisions made by family, friends, and acquaintances to a far greater degree than any advertising campaign. This is true in every aspect of life, from decisions on which restaurants to try, to which professionals to use... including dentists. Our dental practice is living proof. The majority of new patients come from the recommendations of our patients, like you.

Many of our patients have already referred new patients to our office and we are very grateful.

You can receive credit towards your account when you Care to Share.

It's our Care to Share referral program.

When you Care to Share and refer a friend or co-worker, and they come in for their first appointment, you'll receive \$25 towards your dental account.

No matter how many friends come in for their first appointment, for each new patient you'll receive \$25!

So don't keep a great smile to yourself.

Share the Care today!
